

Scottish & Southern Energy

LV Overhead Line Refurbishment

Client: Scottish & Southern Energy

Location: Oxfordshire, Wiltshire, Berkshire, Hampshire, West Sussex and Surrey.

Project: Condition assessment, design and refurbishment of LV networks

Project detail: The project consists of the replacement of decayed poles, establishing correct clearances from buildings and roadways and the replacement of open wire conductors with insulated Aerial Bundled conductor (ABC).

By the end of 2010 refurbishment works had been carried out in both urban and rural locations in the Oxfordshire, Wiltshire, Berkshire, Hampshire, West Sussex and Surrey areas.

Contract duration: October 2007 – ongoing

Contract value: £12.4m (January 2011)

Scope of services: Powerteam was responsible for the following:

- Condition assessment
- Design
- Liaison with local authorities and SSE customers
- Outage planning and management
- Refurbishment and reinstatement works
- Contractor responsibilities under CDM legislation
