

Western Power Distribution

Hayle 132kV Overhead Lines Refurbishment

Client: Western Power Distribution

Location: Hayle, Cornwall

Project: Refurbishment of 132kV overhead lines

Project detail: The project entailed the refurbishment of 132kV overhead lines.

Powerteam has completed a number of refurbishment and construction of new build 132kV tower lines in southwest England and south Wales for WPD, including Hayle phases I and II.

Contract duration: 2005 - 2006

Contract value: £0.6m

Scope of services: Powerteam was responsible for the following:

- Design and installation of foundations
- Supply and erect temporary mast
- Supply and erect tower fittings, terminate conductors and install downloads
- Dismantle existing towers and lines and remove scrap from site
- Principal Contractor responsibilities under CDM legislation
